**PETITION UNDER 37 CFR 1.378(E) FOR
RECONSIDERATION OF THE JULY 7, 2011 DECISION ON PETITION**

The Petitioner, Cyclonatrix, Inc. ("Petitioner"), respectfully requests reconsideration of the July 7, 2011 Decision on Petition under 37 CFR 1.378(e). The Decision on Petition dismissed Petitioner's November 15, 2010 petition under 37 CFR 1.378(b) for acceptance of an unavoidably delayed maintenance fee payment in the above referenced patent that is incorporated herein by reference.

I. Procedural Background

The application for the above-referenced patent ("401 patent") was filed on October 16, 2000 and the '401 patent was issued on March 19, 2002. The '401 patent was assigned to Ultimate Motroller Corporation ("UMC") on October 11, 2000 and then UMC assigned it to Petitioner on November 10, 2010.

The 3.5 year maintenance fee for the '401 patent should have been paid from March 19, 2005 through September 19, 2005, or with a surcharge during the period from September 20, 2005 through March 19, 2006. Despite patent holder's reasonable care, however, UMC failed to

pay the maintenance fee due to financial hardship during the time period and the '401 patent expired on April 19, 2006. Again, UMC failed to revive the expired '401 patent under 37 CFR 1.378(c) within twenty-four months after the six-month grace period.

On August 25, 2009, UMC filed a petition to revive the expired '401 patent under 37 CFR 1.378(c) to accept an unintentionally delayed payment of a maintenance fee, but the petition was dismissed on February 25, 2010. On November 15, 2010, Petitioner filed a petition under 37 CFR 1.378(b) to accept an unavoidably delayed payment of a maintenance fee for the '401 patent, but the petition was dismissed on July 17, 2011. In response to the petition decision, Petitioner submits this petition under 37 CFR 1.378(e) for reconsideration of the petition decision.

II. Legal Standard

35 USC 41(c)(1) provides that a patent may be reinstated at any time following expiration of the patent for failure to timely pay a maintenance fee if the delay is shown to the satisfaction of the Director to have been unavoidable. A petition to accept late payment of a maintenance fee, where the delay was unavoidable, must include under 37 CFR 1.378(b): (1) the required maintenance fee set forth in 37 CFR 1.20(e)-(g); (2) the surcharge set forth in 37 CFR 1.20(i)(1); and (3) a showing that the delay was unavoidable since reasonable care was taken to ensure that the maintenance fee would be paid timely and that the petition was filed promptly after the patentee was notified of, or otherwise became aware of, the expiration of the patent. Additionally, a showing of unavoidable delay based upon financial condition must establish that the financial condition of the responsible party during the entire period of the delay was such as to excuse the entire delay. *Ex parte Murray*, 1891 Dec. Comm'r Pat. 130,131 (1891); *In re Patent* No. 5,085,327, Paper No. 13, at 7 (Comm'r Pat. Dec. 23, 1999).

III. Parties Having Direct Knowledge of the Matter

UMC had been the holder of entire interest in the '401 patent from October 11, 2000 to November 10, 2010 and thereafter, the Petitioner has been the holder of entire interest in the '401 patent. Ki Bong Park has been the president and CEO of UMC from January 2003 to January 2005 and thereafter, David Inil Choi has been the president and CEO of UMC. Therefore, Ki Bong Park and David Inil Choi have direct knowledge regarding the matter of this petition. In addition,

Jong Man Lee and Yong Hwan Kei have participated in the business of UMC as founding members, directors or officers, and thus, they have direct knowledge regarding the matter of this petition.

IV. Statement in Support of the Petition for Reconsideration

Petitioner submits that (1) the required maintenance fees along with surcharges were already paid; (2) reasonable care was taken during the entire period of the delay to ensure timely payment of the maintenance fees; and (3) the financial hardship of UMC during the entire period of delay was such as to excuse the entire delay.

The '401 patent is the only patent, which UMC has, and the most valuable asset to UMC. See Exhibit A at ¶ 5; Exhibit B at ¶ 5; Exhibit C at ¶ 5; Exhibit D at ¶ 5. Therefore, UMC officers and directors have always been well aware of the importance of maintaining the '401 patent and they have frequently discussed the matter of maintaining the '401 patent. See Exhibit A at ¶¶ 13-16; Exhibit B at ¶¶ 12-14; Exhibit C at ¶¶ 12-14; Exhibit D at ¶¶ 12-15. However, UMC has become financially broke and unable to operate its business since 2003 and this financial hardship prevented timely payment of the maintenance fee for the '401 patent. See Exhibits G, H, I, and J; Exhibit A at ¶¶ 6-11; Exhibit B at ¶¶ 6-11; Exhibit C at ¶¶ 6-11; Exhibit D at ¶¶ 6-11. To revive the business of UMC, UMC officers and directors did their best to attract a new investment and the new investment was a prerequisite for paying the maintenance fee or reviving the expired '401 patent. See Exhibit A at ¶ 11; Exhibit B at ¶ 11; Exhibit C at ¶ 11; Exhibit D at ¶ 11.

UMC officers and directors struggled to find potential investors, but to no avail until 2009, when Petitioner showed interest in buying the '401 patent. Petitioner provided small amount of financial support so that UMC could file a petition under 37 CFR 1.378(c) to accept an unintentionally delayed payment of a maintenance fee. UMC filed the petition on August 25, 2009, but it was denied on February 25, 2010. Then, UMC considered filing another petition under 37 CFR 1.378(b) to accept an unavoidably delayed payment of a maintenance fee. This petition cost a lot more than that under 37 CFR 1.378(c), and UMC tried hard to find investors in order to file the petition under 37 CFR 1.378(b). Finally, Petitioner agreed to acquire the expired '401 patent and pursue its revival for itself in October 2010. See Exhibit A at ¶¶ 17-21; Exhibit B at ¶¶ 15-19; Exhibit C at ¶¶ 15-19.

A. Appropriate Maintenance Fee and the Surcharge were Already Submitted.

The Petitioner submitted Credit Card Payment Form to authorize the Director to charge payment of the 3.5 year and 7.5 year maintenance fees along with surcharges, totaling \$2560.00, and such amount was already charged. The breakdown of the payment is as follows:

3.5 year maintenance fee:	490
Surcharge – 3.5 year:	65
7.5 year maintenance fee:	1,240
Surcharge – 7.5 year:	65
Surcharge after expiration (unavoidable):	700

Total: \$2560.00

Along with this petition, Petitioner submits Credit Card Payment Form to authorize the Director to charge the petition fee of \$400.00 as set forth in 37 CFR 1.17(f).

B. UMC has Taken Reasonable Care to Ensure Timely Maintenance Fee Payment

UMC launched its venture to develop, manufacture and sell electric motors for electric vehicles and finally developed a high-performance electric motor. For the invention, the '401 patent was issued in March 2002. Thus, the '401 patent is the most valuable asset to UMC. Furthermore, it is the only patent UMC has. See Exhibit A at ¶ 5; Exhibit B at ¶ 5; Exhibit C at ¶ 5; Exhibit D at ¶ 5.

Due to the importance of the '401 patent, UMC officers and directors have always made best efforts to preserve the '401 patent rights. UMC maintained a corporate record of patent maintenance document and a calendar with markings of due dates to pay the maintenance fee payment. See Exhibit F; Exhibit A at ¶ 14. UMC officers and directors frequently discussed the matter of paying the maintenance fee and held board meeting to discuss the matter as well as finding potential investors. See Exhibit A at ¶¶ 13-16; Exhibit B at ¶¶ 12-14; Exhibit C at ¶¶ 12-14; Exhibit D at ¶¶ 12-15.

The 3.5 year maintenance fee for the '401 patent should have been paid from March 19, 2005 through September 19, 2005, or with a surcharge during the period from September 20,

2005 through March 19, 2006, and at least, board meetings in March and September of 2005, March of 2006, March of 2008, March of 2009, August of 2009, and August of 2010 covered the issue of maintenance fee payment for the '401 patent. *See* Exhibit E. Declarations of Ki Bong Park, David Inil Choi, Jong Man Lee, and Yong Hwan Kei consistently state that since 2004, on many occasions, they discussed the issue of paying maintenance fee through informal discussions or formal board meetings. *See* Exhibit A at ¶¶ 13-16; Exhibit B at ¶¶ 12-14; Exhibit C at ¶¶ 12-14; Exhibit D at ¶¶ 12-15. In addition, the board meeting records and the declarations show that UMC was well aware that after expiration, the expired '401 patent could be revived by a petition. Furthermore, since 2006, UMC officials and directors have continued to discuss the issue of reinstating the expired '401 patent. *See* Exhibit A at ¶¶ 16; Exhibit B at ¶¶ 14; Exhibit C at ¶¶ 14.

Therefore, the evidence shows that UMC has taken reasonable care to ensure that the maintenance fee would be paid in a timely manner.

C. Financial Hardship of UMC Excuses the Entire Period of Delay.

UMC began its business with the expectation of a new market for electric vehicles as the State of California pursued to pass a Mandatory Regulation Bill to mandate sales of electric cars, as much as 10% of total vehicles sold in California. However, UMC was out of luck as the Bill was found invalid by a court decision. As of 2003, UMC had depleted all the investment funds and incurred outstanding liabilities of over one million dollars. *See* Exhibits G, H and J. The situation worsened as UMC was sued by several creditors. *See* Exhibit K. Until 2004, UMC had become financially broke and unable to pay any business expenses. *See* Exhibit A at ¶¶ 6-10; Exhibit B at ¶¶ 6-10; Exhibit C at ¶¶ 6-10; Exhibit D at ¶¶ 6-10.

Since 2004, UMC's available fund has been consistently less than \$100.00 and unable to pay the 3.5 year maintenance fee for the '401 patent. This is supported by the bank statements of NARA Bank business checking account, the only bank account which UMC had, showing that since 2004, the balance of the account had been consistently less than \$100.00 and finally, on July 31, 2006, the bank account was closed by the bank. *See* Exhibit G; Exhibit A at ¶ 9; Exhibit B at ¶ 9; Exhibit C at ¶ 9; Exhibit D at ¶ 9.

Since 2005, UMC officers and directors have tried hard to revive the business of UMC by finding potential investors, and additional funding was prerequisite for paying the maintenance fee or reinstating the expired '401 patent. Despite their best efforts, UMC failed to attract

additional investment. Finally, in 2009, Petitioner showed interest in the '401 patent and provided small amount of financial support so that UMC could file a petition to reinstate the expired '401 patent under 37 CFR 1.378(c). UMC filed the petition on August 25, 2009, but it was denied on February 25, 2010. Then, UMC considered filing another petition under 37 CFR 1.378(b) to accept an unavoidably delayed payment of a maintenance fee. This petition cost a lot more than that under 37 CFR 1.378(c), and UMC tried hard to find investors so that it could file the petition. Finally, UMC reached an agreement with Petitioner to sell the '401 patent. Pursuant to the agreement, Petitioner purchased the expired '401 patent and filed a petition to reinstate the expired '401 patent under 37 CFR 1.378(b) in October 2010. See Exhibit A at ¶¶ 17-21; Exhibit B at ¶¶ 15-19; Exhibit C at ¶¶ 15-19.

Therefore, UMC's financial hardship during the entire period of the delay was such as to excuse the entire delay.

D. Exhibits in Support of this Petition for Reconsideration

Please find the following exhibits in support of the facts presented above:

- EXHIBIT A:** Declaration of David Inil Choi, a founding member of UMC and the President and CEO of UMC since January 2005, showing reasonable care, taken by UMC for timely payment of the maintenance fee, and financial hardship UMC has gone through; UMC board resolution designating David Inil Choi as its President and CEO;
- EXHIBIT B:** Declaration of Jong Man Lee, a founding member and a director of UMC, showing reasonable care, taken by UMC for timely payment of the maintenance fee, and financial hardship UMC has gone through;
- EXHIBIT C:** Declaration of Yong Hwan Kei, a director of UMC, showing reasonable care, taken by UMC for timely payment of the maintenance fee, and financial hardship UMC has gone through;
- EXHIBIT D:** Declaration of Ki Bong Park, a founding member of UMC and the President and CEO of UMC from March 2003 to January 2005, showing reasonable care, taken by UMC for timely payment of the maintenance fee, and financial hardship UMC has gone through;
- EXHIBIT E:** Minutes of UMC Board Meetings, showing reasonable care, taken by UMC for timely payment of the maintenance fee, and UMC's efforts to find additional investment;

- EXHIBIT F:** Corporate document held by UMC regarding the maintenance fee payments for a patent;
- EXHIBIT G:** UMC's Bank Account Statements of NARA Bank, the only bank account of UMC: quarterly statements for 2004 and monthly statements for 2005 and 2006 until July, 2006 when the Bank Account was closed, showing that the balance of the account had been consistently less than \$100.00;
- EXHIBIT H:** 2001 Income Tax Return, the last tax return filed by UMC, reporting losses of \$991,326.00;
- EXHIBIT I:** California Secretary of State Website, showing UMC's status as suspended; Certificate of Status to suspend UMC's corporation status for failing to pay the California franchise tax; 2003 Statement of Information last filed by UMC;
- EXHIBIT J:** UMC's loans as of November 18, 2002, showing UMC's liabilities totaling more than one million dollars; and
- EXHIBIT K:** Litigation documents where UMC was sued.

V. Conclusion

The Petitioner respectfully submits this petition for reconsideration for your immediate and favorable consideration and requests this petition for reconsideration be granted.

Very truly yours,
Park Law Firm

EXHIBIT A

1 DECLARATION OF DAVID INIL CHOI

2 I, David Inil Choi, declare as follows:

3 1. I am one of the founding members and served as a Director of
4 Ultimate Motroller Corporation, Inc. (hereinafter "UMC") since its incorporation
5 in 1996, and became the President and CEO of UMC in January, 2005. The facts
6 herein are within my personal knowledge and if called to testify, I would be
7 competent to do so.

8 2. As a Director and current President and CEO of UMC, I have direct
9 knowledge of UMC's internal affairs and financial situation.

10 3. UMC was incorporated in 1996 to develop, manufacture and sell
11 electric motors for electric vehicles.

12 4. UMC developed a high-performance electric motor and a patent was
13 issued for the invention in March, 2002 (U.S. Patent No. 6,359,401 (hereinafter
14 "Patent")).

15 5. The Patent is the only patent UMC has and the most valuable asset to
16 UMC.

17 6. Since late 1990s, UMC incurred many financial losses and was
18 getting involved in several litigations as a defendant. Whatever income it had went
19 to addressing the multiple litigations, leaving us in a very vulnerable state
20 concerning other business matters.

21 7. Up until 2003, the situation had gradually worsened and UMC
22 became broke and unable to pay any business expenses.

23 8. Since 2004, UMC has been unable to keep up with its business and
24 financial responsibilities, including the maintenance of the Patent.

25 9. The financial situation of UMC is shown by the bank statements of
26 NARA Bank business checking account, the only bank account which UMC had.
27 Since 2004, the balance of the account had been consistently less than \$100.00,
28 and finally on July 31, 2006, the bank account was closed by the bank.

1 10. Even the incorporation of UMC was suspended in August, 2004 by
2 Secretary of State of California due to non-payment of California Franchise Tax.

3 11. I was well aware that UMC's future depended on additional
4 investments and tried hard to find potential investors. I agreed with the idea that
5 despite the crucial importance of maintaining the Patent, its maintenance or revival
6 after expiration of the Patent was conditioned on receiving additional fund.

7 12. In January, 2005, I became the President and CEO of UMC, which
8 had stopped its business operation long ago, and inherited the responsibility of
9 finding investors to help revive UMC.

10 13. I was always aware of the need to pay the 3.5 year maintenance fee
11 for the Patent and the need to revive the expired Patent upon expiration.

12 14. I maintained a corporate document regarding the 3.5, 7.5, and 11.5
13 year maintenance fee payments for the Patent and the calendar marked for due
14 dates to pay the maintenance fee.

15 15. From 2004 to 2006, on many occasions, I discussed the maintenance
16 of the Patent with other UMC officers and directors.. Thus, all UMC officers and
17 directors were well aware that the Patent rights needed to be preserved, but its
18 maintenance was conditioned on getting more investments for UMC.

19 16. In 2005 and 2006, on several occasions, UMC board meetings were
20 held for the agenda of potential investment in UMC and maintenance of the Patent.
21 In the meetings, the status of the Patent was always covered and the matter of
22 paying maintenance fee or reviving the expired Patent was discussed. Besides the
23 board meetings, UMC officers and directors had discussed the matter of the Patent
24 on many occasions. Since 2006, on many occasions, UMC officers and directors
25 have discussed the issue of reviving the Patent.

26 17. Until 2009, UMC could not find any potential investors.

27 18. In mid 2009, Cyclonatix, Inc. showed interest in the expired Patent
28 and offered financial support to reinstate the expired Patent. Therefore, UMC filed

1 a petition in 2009 based on unintentional delay, which was denied in February
2 2010. UMC decided to proceed with the ground of unintentional delay rather than
3 the ground of unavoidable delay because the attorney fee was a lot more expensive
4 for the latter.

5 19. With the denied petition, UMC tried once again to find investors
6 throughout 2010 so that it could file another petition based on unavoidable delay.

7 20. In around August 2010, Cyclonatix offered again to take over the
8 expired Patent and handle the petition to reinstate it.

9 21. In November 2010, UMC assigned the expired Patent to Cyclonatix
10 and Cyclonatix filed a petition to revive the Patent based on unavoidable delay.
11

12 I declare under penalty of perjury under the laws of the United States and the
13 State of California that the foregoing is true and correct to the best of my
14 knowledge.
15

16
17 Executed on September 6, 2011 in Los Angeles, California.

1 DECLARATION OF JONG MAN LEE

2 I, Jong Man Lee, declare as follows:

3 1. I am one of the founding members of Ultimate Motroller Corporation,
4 Inc. (hereinafter "UMC") and I served as the director of UMC since its
5 incorporation in 1996, except the period from May, 2002 to March, 2005. The
6 facts herein are within my personal knowledge and if called to testify, I would be
7 competent to do so.

8 2. As a director, I have direct knowledge of UMC's internal affairs and
9 financial situation.

10 3. UMC was incorporated in 1996 to do business to develop,
11 manufacture and sell electric motors for electric vehicles.

12 4. UMC developed a high-performance electric motor and a patent was
13 issued for the invention in March, 2002 (U.S. Patent No. 6,359,401 (hereinafter
14 "Patent")).

15 5. The Patent is the only patent UMC has and the most valuable asset to
16 UMC.

17 6. Since late 1990s, UMC incurred many financial losses and was
18 getting involved in several litigations as a defendant. Whatever income it had went
19 to addressing the multiple litigations, leaving us in a very vulnerable state
20 concerning other business matters.

21 7. Up until 2003, the situation had gradually worsened and UMC
22 became broke and unable to pay any business expenses.

23 8. Since 2004, UMC has been unable to keep up with its business and
24 financial responsibilities, including the maintenance of the Patent.

25 9. The financial situation of UMC is shown by the bank statements of
26 NARA Bank business checking account, the only bank account which UMC had.
27 Since 2004, the balance of the account had been consistently less than \$100.00,
28 and finally, on July 31, 2006, the bank account was closed by the bank.

1 10. Even incorporation status of UMC was suspended in August, 2004 by
2 Secretary of State of California due to non-payment of California Franchise Tax.

3 11. I was well aware that UMC's future depended on additional
4 investments and tried hard to find potential investors. I agreed with the idea that
5 despite the crucial importance of maintaining the Patent, its maintenance or revival
6 after expiration of the Patent was conditioned on receiving additional fund.

7 12. I have been aware of the need to pay the 3.5 year maintenance fee for
8 the Patent and the need to revive the expired Patent upon expiration.

9 13. From 2005 to 2006, on many occasions, I participated in discussions
10 with other UMC officers and directors regarding the maintenance of the Patent.
11 Thus, all UMC officers and directors were well aware that the Patent rights needed
12 to be preserved, but its maintenance was conditioned on getting more investments
13 for UMC.

14 14. In 2005 and 2006, on several occasions, I participated in UMC board
15 meetings regarding the need to pay maintenance fee for the Patent and revive upon
16 expiration. Since 2006, on many occasions, UMC officials and directors have
17 discussed the issue of reviving the Patent.

18 15. Until 2009, UMC could not find any potential investors.

19 16. In mid 2009, Cyclonatix, Inc. showed interest in the expired Patent
20 and offered financial support to reinstate the expired Patent. Therefore, UMC filed
21 a petition in 2009 based on unintentional delay which was denied in February
22 2010. UMC decided to proceed with the ground of unintentional delay rather than
23 the ground of unavoidable delay because the attorney fee was a lot more expensive
24 for the latter.

25 17. With the denied petition, UMC tried once again to find investors
26 throughout 2010 so that it could file another petition based on unavoidable delay.

27 18. In around August 2010, Cyclonatix offered again to take over the
28 expired Patent and handle the petition to reinstate it.

19. In November 2010, UMC assigned the expired Patent to Cyclonatrix and Cyclonatrix filed a petition to revive the Patent based on unavoidable delay.

I declare under penalty of perjury under the laws of the United States and the State of California that the foregoing is true and correct to the best of my knowledge.

Executed on September 2, 2011 in Los Angeles, California.

1 DECLARATION OF YONG HWAN KEI

2 I, Yong Hwan Kei, declare as follows:

3 1. I am a director of Ultimate Motroller Corporation, Inc. (hereinafter
4 "UMC"). The facts herein are within my personal knowledge and if called to
5 testify, I would be competent to do so.

6 2. As a director, I have direct knowledge of UMC's internal affairs and
7 financial situation.

8 3. UMC was incorporated in 1996 to develop, manufacture and sell
9 electric motors for electric vehicles.

10 4. UMC developed a high-performance electric motor and a patent was
11 issued for the invention in March, 2002 (U.S. Patent No. 6,359,401 (hereinafter
12 "Patent")).

13 5. The Patent is the only patent UMC has and the most valuable asset to
14 UMC.

15 6. Since late 1990s, UMC incurred many financial losses and was
16 getting involved in several litigations as a defendant. Whatever income it had went
17 to addressing the multiple litigations, leaving us in a very vulnerable state
18 concerning other business matters.

19 7. Up until 2003, the situation had gradually worsened and UMC
20 became broke and unable to pay any business expenses.

21 8. Since 2004, UMC has been unable to keep up with its business and
22 financial responsibilities, including the maintenance of the Patent.

23 9. The financial situation of UMC is shown by the bank statements of
24 NARA Bank business checking account, the only bank account which UMC had.
25 Since 2004, the balance of the account had been consistently less than \$100.00,
26 and finally on July 31, 2006, the bank account was closed by the bank.

1 10. Even incorporation status of UMC was suspended in August, 2004 by

1 DECLARATION OF KI BONG PARK

2 I, Ki Bong Park, declare as follows:

3 1. I am one of the founding members of Ultimate Motroller Corporation,
4 Inc. (hereinafter "UMC") and I served as the President and CEO of UMC from
5 March, 2003 to January, 2005 when David Inil Choi was elected to take my place.
6 Thereafter, I served as a Vice president of Engineering of UMC. The facts herein
7 are within my personal knowledge and if called to testify, I would be competent to
8 do so.

9 2. As a founding member and former President and CEO of UMC, I
10 have direct knowledge of UMC's internal affairs and financial situation.

11 3. UMC was incorporated in 1996 to develop, manufacture and sell
12 electric motors for electric vehicles.

13 4. UMC developed a high-performance electric motor and a patent was
14 issued for the invention in March 2002 (U.S. Patent No. 6,359,401 (hereinafter
15 "Patent"), for which I was one of the inventors.

16 5. The Patent is the only patent UMC has and the most valuable asset to
17 UMC.

18 6. Since late 1990s, UMC incurred many financial losses and was
19 getting involved in several litigations as a defendant. Whatever income it had went
20 to addressing the multiple litigations, leaving us in a very vulnerable state
21 concerning other business matters.

22 7. Up until 2003, the situation had gradually worsened and UMC
23 became broke and unable to pay any business expenses.

24 8. Since 2004, UMC has been unable to keep up with its business and
25 financial responsibilities, including the maintenance of the Patent.

26 9. The financial situation of UMC is shown by the bank statements of
27 NARA Bank business checking account, the only bank account which UMC had.
28

1 had. Since 2004, the balance of the account had been consistently less than
2 \$100.00, and finally on July 31, 2006, the bank account was closed by the bank.

3 10. Even the corporation status of UMC was suspended in August 2004
4 by the Secretary of State of California due to non-payment of California Franchise
5 Tax.

6 11. UMC officers and directors, including myself, were well aware that
7 UMC's future depended on additional investments and tried hard to find potential
8 investors. Despite the crucial importance of maintaining the Patent, its
9 maintenance or revival after expiration of the Patent was conditioned on receiving
10 additional fund.

11 12. I have been aware of the need to pay the 3.5 year maintenance fee for
12 the Patent and the need to revive the expired Patent upon expiration.

13 13. I maintained a corporate document regarding the 3.5, 7.5, and 11.5
14 year maintenance fee payments for the Patent and marked the calendar for due
15 dates for the maintenance fee payment.

16 14. From 2004 to 2006, on many occasions, I discussed the maintenance
17 of the Patent with other UMC officers and directors. Thus, all UMC officers and
18 directors were well aware that the Patent rights needed to be preserved, but its
19 maintenance was conditioned on getting more investments for UMC.

20 15. I was well aware that in 2005 and 2006, on several occasions, UMC
21 board meetings were held for the agenda of potential investment in UMC and
22 maintenance of the Patent. Besides the board meetings, UMC officers and directors
23 had discussed the matter of the Patent on many occasions.

24
25
26 I declare under penalty of perjury under the laws of the United States and the
27 State of California that the foregoing is true and correct to the best of my
